

Terms of Use

The 2021-22 Northern Hemisphere Mulberry Planner was designed by Grace Koelma © 2021 The Mulberry Journal.

By purchasing this digital planner you agree not to distribute, copy, alter, re-sell or claim this work as your own in any format - digital or hard copy.

Hours of painstaking work went into creating this planner, so we ask that you use your purchased files for your own homeschool planning only and don't share these files with others. If you'd like to share with friends, you can direct them to download a **free sample printable here.**

If you have any questions, enquiries or issues with the download, please email hello@themulberryjournal.com

We'd love to see how you use your planning pages. You can share photos using [#themulberryplanner](https://www.instagram.com/hashtag/themulberryplanner) on social media.

Happy organising!

Hi, and welcome to your 2021-22 Northern Hemisphere planner with our gorgeous new design. I hope you're going to love it! Take the time to READ THESE TIPS before you hit print...

Inside the 2021-22 planner

This printable planner has everything you could possibly need to plan, track and evaluate your family's home school life and learning journey.

• **What's new this year?**

In the 2021-22 planner, we've kept all the page templates you know and love, and updated them with a gorgeous new floral theme. Additions to the planner include a new set of home organisation templates, excursion and regular class lists, extra section divider categories, and goal tracker templates specifically for parents, as well as printable bookmarks.

• **Flexibility to mix & match**

Every homeschooling family's needs are different, so I've designed many key templates with multiple layout options, to suit ages Prep/Kindy - Grade 12.

• **Downloading**

You'll see a LOT of files in this planner download - don't panic and definitely DONT print every page! Simply scan through the files in Adobe PDF viewer and decide which pages you'll use and which cover and section cover pages you prefer.

* Tip! Use our handy print checklist to help you plan which pages to print.

• **Calendars from July 2021 to June 2022**

There are monthly calendars for the July - June Northern Hemisphere school year, as well as an annual overview for 2021 and 2022.

• **Printing and displaying**

All the files are A4 size in high resolution PDF format for professional print quality. The pages are designed with extra margin on the left for punch holes. I recommend you use a 2 or 3 ring binder to store your pages, and print cover and section pages on a thicker card (120-200gsm).

It's time to get planning! I'd love to see how you use these printables - share your insta pics #themulberryplanner
